Where medicine meets engineering

Year: 2014, Issue 1

ISSN: 2628-2968

Publisher:

Anja Thede

Friedrich-Jacobs-Promenade 12

10317 Berlin

Table of Contents

3D printing in tissue engineering: Future scope and limitations – A meta-analysis	4
Design and validation of method for simple step counting in treadmill walking.....	13
Hepatic blood flow fluid analysis using computational Newton’s methods.....	24
Urinary catheter history, state of the art and future scope.....	35
